

Auditmetrics-AES
PO Box 6866
Holliston, MA 01746

AM-AES Master

[Order Here](#)

Features:

- **Master Software Sent to user on a flash drive.**
 - **Why flash Drive?->** When user receives Auditmetrics -AES it is loaded with a personal encrypted pass key using Advanced Encryption System protocol. Each customer gets Unique Pass Key. Another customer will have a different loaded Pass key that is unique to that individual. There can be no cross references. It is tailored for individual customer and therefore not cookie cutter mass produced for download, for example from a Microsoft Store.
 - Avoids trying to track and store individual pass words since your computer's software will have it built in.
- **Free standing program, no installation required allowing someone to lurk around on your computer.**
- **If you have several equal business locations then install same Master to create a network chain linked by the same embedded encrypted Pass Key.**
- Create encrypted documents i.e. Excel, Word, Access database, PDF etc. that can be shred via e-mail.
- For very large data sources can share with flash drive OR file transfer protocol (FTP) or Cloud.
- Can Share Pass Key with a designated client with set up (below) you provide.
- Requires MS Windows

Price \$40
